Manic therapy, magnetotherapy, is an alternative and/or complementary practice, also called therapy or biomagnetism, is a natural and safe therapy that restores the normal condition of the body. The goal is to match the agency's s to the health of the patient. nysmical biomagnetism is a new musical discipline that allows us to understand the disease from an energy and vibrational point of view, no longer chemical. Who's headed? For all those people who have an inter- s for natural therapies or alternatives to allofiable medicine, always from a base already created in biomagnetism, is not an application starting from zero with biomagnetism, this question is carried out by studies conducted by Dr. issac goiz duran, because of my experience within alternative therapies, as a professional in the field. a part of the detailed information in the application is extracted from my book € has contributed to solve emotional conflicts and therefore some pathologies have an area to manage patients with a history of questions where peers who hit them for consultation or diseases can be maintained, as well as patient data, name, phone, e-mail and birth date all the above is detailed within the application in their own area of information, information about oa turs and perdoni privacy polymap career ni enoizacilppa'nu atlov anu anUenohPi / daPi ous len enoizacilppa'1 aivvaiR .ovitisopsid lus otallatsni etnemavoun Árrev enoizacilppa'1 e drowssap al erettemmí .drowssap al otseihc Árrev it e erallatsni rep eremerP .enoizacilppa'1led anoci'1la otnacca erallatsni id amreffa aro ehc iardeV .enoizacilppa artson alla odnanrot ,elppA DI out li noc enoisses al odnaizini ,erotS ppa'1 arbA .eretoucs id onnarettems inoizacilppa el e atlov anu arocna aznetrap id ailgittob allus cilc iaF .ovitisopsid lad atanimile Árrev enoizacilppa'1 e animilE eraccoT .itad iout i ittuv e enoizacilppa'1 eranimile aredised is ehc eramrefnoc id otseihc Árrev it .X al imerP .artsinis a otla ni ologna'1len erappa X anu e eramert a Áreizini anoci'1 ehc otnoc Áredrner iS .idnoces inucla rep otumerp ineit e enoizacilppa'1led anoci'1 euqsuB enohPi / daPi out lus LLATSNI- er e enoizacilppa'1 animilE .)elppA ad "arpmoceR" erallatsni id ossecorp li osrevartta erassap iveD .ovoun id eratsiuqca oirassecen " Á non ,ppA- ni otsiuqca nu noc adnamod anu otanimile ah itsiuqca iSppA- ni .elppA DI out li noc otautteffe Áig otsiuqca nu rep avitnuigga enoizisop anu ni o etlov eud Áretibedda non elppA .Itrapuocoerp noN .erotS ppa'1lad enoizacilppa'1 allatsnier e animile .ameborp li evolisir non enoizacilppa'1led otvair la enoizacilppa'1led enoizallatsnier al e enoizanimile L .ameborp li Árevolisir otseuq .enoizacilppa'1led oivvair li ,ozziitu .omsitengamoib id ppa'1 rep lacini?
